PRN - 22320016

Welcome!

The goal of this activity is to sort the given cards into groups of similar items.

Instructions

To start, click and drag any card from the top "Scrambled" section into the bottom "Groups" section. Keep dragging cards from the "Scrambled" section into the "Groups" section, sorting them into separate groups or piles.

You can create as many groups as you like, and each group can have as many cards as you'd like. Categorize all the cards.

Take as much or as little time as you need.

Questions?

- Were there any cards that were difficult to categorize? If so, which ones and why?
- Which features do you consider the most important for a skill assessment platform?
- Were there any features you think are missing from the set of cards?

Your Answers

- Unable to categorize the remaining 2 cards because i have no clear idea of what those cards fit into.
- Maybe there is a need for a new group for them to be in.

Scrambled cards

- Job Market Trends
- Internship/Job Matching

Groups

Assessment
- Soft Skills Assessment
- Quiz Participation
- Resume Upload

Learning
- Study Resources
